Cancer Registries in the European Health Data Space

ABSTRACT

The European Health Data Space is coming! Published in March 2026, the EHDS will bring a major shift in how health data can and will be used in Europe. With the aim to optimise the exchange of and access to health information within the EU, what will the EHDS bring for cancer registries? It is an opportunity, a risk, or maybe both? Learn more about what drives the EHDS developments, and what cancer registries should prepare for.
